

Arauco North America – Sustainability & Environmental Leadership

Our Commitment

At Arauco, sustainability is at the core of everything we do. From responsibly managed forests to advanced product innovations, we are dedicated to creating wood solutions that respect people and the planet. Our approach integrates **environmental stewardship, circular economy principles, and continuous innovation**, setting us apart as an industry leader.

Sustainability Initiatives

- **Responsible Forestry**
 - One of the world’s largest forest managers, ensuring responsible harvesting and reforestation.
 - Protecting biodiversity with designated conservation areas.
 - Using science-based practices to promote healthy, resilient forests.
 - **Carbon Leadership**
 - Arauco is a global pioneer in decarbonization, achieving **third-party verified carbon neutrality in 2020**.
 - Forests and products act as significant carbon sinks, storing millions of tons of CO₂ annually.
 - **Circular Economy & Resource Efficiency**
 - 100% of wood fiber is used—logs, chips, sawdust, and bark become panels, pulp, energy, or other products.
 - Production facilities powered significantly by **biomass energy**, reducing reliance on fossil fuels.
 - Active programs to reduce water use and waste across operations.
-

Environmental Certifications

Arauco’s commitment is backed by internationally recognized third-party certifications:

- **FSC® (FSC®-C019346) (Forest Stewardship Council®)** – Certifies responsible forest management.
- **CARB & TSCA Title VI Compliant** – Meets the world’s strictest standards for formaldehyde emissions.
- **ECC (Eco-certified Composite)** - based on life cycle inventory and other verifiable environmentally responsible practices.
- **Carbon Neutral** – Globally, the carbon dioxide captures of the company are greater than its emissions.

Why Arauco?

- **Global Sustainability Leader** – First forestry company worldwide certified as carbon neutral.
- **Trust & Transparency** – Independent, third-party verified certifications across products and operations.
- **Innovation for a Better Future** – Developing next-generation wood solutions that combine performance and sustainability.

The mark of
responsible forestry
