

May 24, 2022

To our valued PRISM TFL Partners:

In preparation for our 2022 Design Debut, we are taking this opportunity to balance and refresh our current offering. This letter serves as notification that effective today, we are moving the Prism designs listed below to inactive status. The designs contained in this notice are part of Arauco North America's regularly planned TFL design review process. Our intent is to support these designs for a limited time to allow for future planning by all our customers. Please work with your Regional Sales Manager and Inside Sales Representative during this transition. These designs will be available until current inventory is depleted or the end of 2022, whichever happens first.
