

Edge-Glued Boards

ARAUCO's top quality edge-glued boards are made from 100% Radiata pine from ARAUCO's own, sustainably managed forests.

These mouldings provide an essential element in contemporary interiors, from today's Craftsman design, including trim boards, bases and casing, to multi-purpose project finishing.

- Pre-finished with one coat of moisture-resistant gesso plus one coat of exterior latex primer. External use validated using ASTM G 154 test method (7 cycles, minimum required 200 hours).
- Ends sealed with exterior latex primer.
- All four faces buffed after priming for a smooth finish.
- Finger-jointed with exterior glues. Complies with ASTM 5572 and EN 204/205 Dry Use and Wet Use.
- Made from clear blocks of Radiata pine from ARAUCO's own sustainably managed forests.
- FSC® Chain of Custody certified (FSC®-C019364).
- For a professional finish, two coats of 100% acrylic paint are recommended.
- For interior use: trim boards, bases, casing, multi-purpose finishing of projects.
- Essential for Craftsman-style décor.
