# ARAUCO offers the most extensive selection of moulding and millwork

available anywhere from  
a single manufacturer

## Versatility

ARAUCO offers over 10 thousand patterns and profiles in different thicknesses, widths and substrates, including high-grade MDF, solid Radiata Pine, finger-joint moulding and treated millwork ideal for exterior applications.

From crowns, bases, casing, shiplap, edge-glued boards, jambs, frames and more, trust ARAUCO moulding to facilitate better installation outcomes, durability and predictable performance.

**ARAUCO MOULDING ARE  
UNIFORM IN APPEARANCE,  
OFFER A LIGHTWEIGHT  
FEEL, EXCELLENT FINISH,  
AND ARE EASY TO INSTALL.**

## Edge-Glued Boards

ARAUCO Edge-Glued Boards are made from Radiata Pine for a consistently straight, smooth product, in raw, primed, oil-primed, and rough sawn finishes. LOSP treatment is also available for exterior applications.

- Exterior primer and adhesives
- LOSP treatment for exterior applications

## Finger-Joint Moulding

ARAUCO Finger-Joint Moulding, virtually free of defects, is precision milled for superior quality and high performance. Offered primed and pre-finished.

- Priming
  - One coat jesso, one coat latex
  - Marble primed available
- Mitering
- Smalls
- LOSP treatment for exterior applications
- Combined shipments available

## MOULDING AND MILLWORK

### Solid Moulding

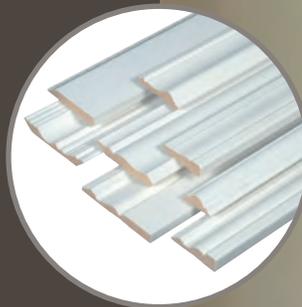

ARAUCO Solid Moulding is made from 100% clear, solid Radiata Pine for a consistently straight, knot-free product with a natural light color.

- Random and cut-to-length available
- Optimal tally for fast installation and less waste
- Smooth, knot-free quality, natural light

### Ultralight Moulding

ARAUCO Ultralight MDF Moulding is manufactured in Chile and imported into North America. Available in a wide variety of standard and custom profiles, Ultralight MDF moulding are precision milled with a density of 32 lb/ft<sup>3</sup> and a smooth, ready-to-paint jesso primed surface. These moulding are a great choice for painted trim applications, offer superior workability and are easy to cut, miter, nail and finish.

### Shiplap

From comfortable country to cozy coastal, express your inner designer with warm and inviting ARAUCO Shiplap the perfect way to add charm to any interior space. Our easy-to-maintain shiplap will turn any wall into a feature wall. ARAUCO offers Thermally Fused Laminate (TFL) shiplap, 100% Radiata Pine finger joint shiplap, and primed MDF shiplap.

### Jams and Frames

ARAUCO Jams and Frames are made from high-quality Radiata Pine, and offered in a wide variety of raw and primed finishes, options for applied stop and weather strip, and hinge & strike machining capabilities.

- Flat, split, frame
- Weather-stripping, hinge & strike, dados

## Expanded Service Model in North America

In 2019, ARAUCO expanded its moulding platform into North America with the addition of state-of-the-art moulding plants co-located with its southeastern MDF mills. We now offer a wide range of MDF millwork, boards, shelving, jambs, and custom and specialty profiles with the quality and consistency worthy of the ARAUCO name.

This expanded capability brings quality, craftsmanship, and value to customers through product diversification, broader service coverage and supply chain efficiencies. Vertical integration of raw materials and manufacturing promotes innovative design and environmentally responsible production.

### Light MDF Moulding

**Light MDF Moulding** is precision milled with a density of 44 lb/ft<sup>3</sup> to achieve a lightweight, yet durable, feel and provide excellent handling characteristics. Our North American mills produce a wide range of millwork, boards, shelving, jambs, and custom and specialty profiles.

- Latex-primed, with 3-side and 4-side options
- Options for enhanced moisture resistance and ULEF substrates
- Substrate made from 100% recycled and/or recovered wood fiber.

# Redundant Supply Chain, Vertical Integration and Logistics Strength

## Spanning Two Continents

### Consistency

With more than 20 years of experience in millwork production, ARAUCO operates with the most recent technology to ensure precise and consistent profile appearance, lightweight feel and consistent color.

The company's single-source manufacturing approach of integrating manufacturing of substrate and finished goods ensures predictable supply and product quality.

## Certifications

Through due diligence and best practices, ARAUCO has achieved many significant goals and certifications for its products and operations.

- PEFC/CERTFOR certified
- Wood substrates are compliant with EPA TSCA Title VI /CARB-2
- North American MDF substrate mills meet (CPA) Eco-Certified Composite™ (ECC) Standard
- ARAUCO is third-party certified as carbon neutral
- ARAUCO mills have attained ISO-9001, ISO-14001, and/or ISO 45001 certifications
- Radiata Pine and fiber from ARAUCO's sustainably managed forests used in South American manufacturing as well as the recycled and recovered fiber used to make MDF substrate in North America are FSC® Chain of Custody certified (Lic. C019364).

# A Global Leader in Sustainable Forest Products Solutions

ARAUCO is a global company with a local heart, bringing the reach of a leading producer of sustainable forest products to the heart of North America. We are committed to creating value for our customers while at the same time, respecting the environment and aspiring to improve the lives of people everywhere.

The company maintains 3.9 million acres of FSC® certified forestland in South America, 75% is sustainably grown for commercial uses, and 25% is native forest that we protect. We are the steward of the forestland, from fire protection to innovative biotechnology that improves the resiliency of our forests and, ultimately, the quality of our products.

In North America, we don't grow, cut or log, but our composite panel operations maximize the raw material from every tree, using underutilized, recycled and reclaimed wood fiber to make our products.

Forest  
Products

# ARAUCO

## Around the World

With our work and innovation, we develop products that inspire the creation of solutions aimed at improving the quality of life of millions of people around the world, with presence in the forestry, pulp, wood, panels and clean and renewable energy businesses.

- Over **4,600 customers** in 5 continents
- Products sold at points of sale through representatives, sales agents and sales offices in **30 countries**
- Logistics chain and distribution management, delivering through 22 ports and distributing to more than **3,500 destinations** throughout the US and Canada, with distribution through **208 ports** worldwide

**ARAUCO manufactures the industry's most comprehensive selection of composite panels, premium plywood, millwork, lumber, and wood pulp.**

With roots in sustainable forest product solutions and a commitment to our customers' success, ARAUCO has grown to become the second largest wood panel producer in the world.

Today, ARAUCO brings more than half a half-century of manufacturing excellence and innovative product development to the North American market. With its global logistics, operations and service footprint, ARAUCO is well-positioned to deliver a superior level of service and to build mutually beneficial, lasting relationships with its customers.
