ARAUCO Extends Fibrex HDF line with Decorative Beadboard Wall Panels

ATLANTA – June 29, 2020 – Today ARAUCO announced the addition of Fibrex Beadboard to its Fibrex High Density Fiberboard (HDF) line produced at the company's St. Stephen, N.B., facility.

The durable, HDF beadboard, for residential and commercial interiors, is offered in both two inch and four inch on-center groove patterns. Fibrex Beadboard is offered with a decorator-quality, pre-painted white finish providing a time-saver during installation. The smooth surface also finishes beautifully if additional coats of paint or other colors are desired.

Fibrex Beadboard is offered in a standard thickness of 4.8 mm, with standard sheets sizes of 48" x 96" and 32" x 48" ideal for wainscot. Custom thicknesses are available from 4.8 mm up to 6 mm, as well as cut-to-size (CTS) options with applicable minimum purchase volumes. The beadboard panel is also available raw with these standard and custom options. Shipments are underway.

About Fibrex HDF

Fibrex HDF is a thin MDF panel that is uniform and dense, and an ideal substrate for a variety of laminated or perforated surfaces, foil finishes, paints and veneers. HDF is used for door skins, office furniture components, drawer backs and bottoms, display fixtures and decorative wall panels. Versatile in nature, Fibrex HDF is available as a raw industrial panel, and with value-added options including pegging, chalkboard and dry-erase finishes, decorative paint finishes or direct-print woodgrains.

About ARAUCO

ARAUCO is a global manufacturer of forest products, including the industry's most comprehensive selection of composite panels, premium plywood, millwork, lumber and wood pulp. With roots in sustainable forestry and innovative product development, ARAUCO brings more than a half-century of manufacturing and supply chain excellence to the North American market. The company operates multiple production facilities in both North and South America and ships to more than 3,500 destinations throughout North America.
