

## Raw Materials Sourcing Distances

ARAUCO North America domestic composite panels are manufactured with wood raw materials that have been sourced locally and may help achieve credit in several programs where use of locally sourced materials is recognized.

The table below details wood supply distances of extraction by mill. Values are calculated on a dry weight basis.

Extraction Distance	Sault Ste. Marie, ONT (MDF)  657 Base Line Sault Ste. Marie, Ontario Canada P6A 5K6	St. Stephen, NB (Fibrex®)  151 Church Street St. Stephen, New Brunswick Canada E3L 3A6	Carolina Particleboard (CPB), Bennettsville SC (PB)  582 Willamette Rd.
