DESIGN WITH INTENTION

• **Location:**

Glenview, IL

• **Owner/Designer:**

Starved Rock Wood Products

• **Distributor:**

Sierra Forest Products

• **Description:**

Starved Rock Wood Products converted three store spaces into one 9,300 square-foot showroom in Glenview, Illinois. The company completed the demolition and construction themselves, in spite of delays due to COVID-19 supply chain issues, including design, architecture, demolition and construction. The extensive showroom features eleven kitchens – seven traditional, and four modern. The showroom also displays several styles of bathroom vanities and built-in cabinets. Starved Rock's confidence in Prism TFL's beauty and performance inspired the company to feature this product in numerous installations throughout the showroom, including Prism TFL SF250 Duke, SF252 Quarry, SF237 Charcoal, WF357 Sandalwood, WF397 Stromboli, WF448 Seared Oak and WF456 Enigma.
